3DWHEEL ALIGNMENT

Features :

- High resolution HD Camera
- 32" LCD
- Drive on Camera
- Wi-Fi enabled
- Hindi / English voice Reference
- Unlimited data memory
- Vehicle body data memory
- Vehicle body demension measurement
- Customer data auto Saving
- Moveable Trolley
- Wireless Keyboard Mouse
- Online Service Support
- Online Data Update
- Printer **Optional**
- Operating with remote pad **Optional**

Specifications :

Measurement	Range	Precision
Toe	$\pm 20^{\circ}$	± 0.02
Camber	$\pm 12^{\circ}$	± 0.02
Caster	$\pm 25^{\circ}$	± 0.02
SAI	$\pm 25^{\circ}$	± 0.02
Thrust angle	$\pm 10^{\circ}$	± 0.02
Operating System	Windows 7/8/10	----
Operating Voltage	220V / 50Hz AC

WHEEL BALANCER

Features :

- Seven segment Display.
- Fast Cycle Time of only 7 Seconds.
- 4 LED used for weight fitting position indication.
- High frequency buzzer provided for weight Position indication.
- Easy Calibration using master weight.
- Auto Breaking
- A Different Alloy / Sticker mode of Balancing
- Easy parameter setting.
- PC membrane keypad for long life.
- Crompton motor provided for better quality.

Specifications :

Rim Width	1.5" - 10"
Rim Diameter	10" - 24"
Balancing Accuracy	1 gram
Cycle Time	7 Seconds
RPM	240
Tyre Capacity	65Kg
Animation	Yes
Motor	0.33 Hp
Opening Voltage	220V / 50 Hz
